

## GRC Consulting Services

*You cannot manage what you do not monitor*

**Virtual Compliance Officer (VCO)** is a strategic service offering to organizations so that they do not have to be an expert in compliance but an expert in your core business competencies. By retaining GRC Consulting Services VCO services, you will rest easier by knowing that when you have a compliance issue or question, you have someone to turn to.

Your VCO will be available when you need them to answer questions and respond to other needs; such as IT audit, privacy and compliance strategic planning, and risk and security compliance assessments. The VCO empowers your business by providing you in-house expertise for Payment Card Industry (PCI), Sarbanes Oxley (SOX), Health Insurance Portability and Accountability Act (HIPAA), Red Flag Rule, State privacy and security laws and other laws / regulations.

Your business is a candidate for VCO services if:

- You want to improve or increase your productivity and grow your business instead of worrying about becoming an expert on the ever increasing compliance and regulatory requirements.
- You don't know your business risks.
- You don't want to hire a compliance expert but you want a single point of contact for your compliance needs.
- You want to save money. You need to manage your cash strategically without getting into long-term contracts.
- You are concerned about potential non-compliance fines but don't know where to start?
